

THE HYDROGRAPHIC SOCIETY IN SCOTLAND

Presents

2018 Lectures for Schools

(P7, S1 & S2 school pupils)

Thursday, 17th May 2018

**Fraser Noble 1 Theatre (FN1), Fraser Noble building,
Aberdeen University (see attached map)**

Aberdeenshire 10:00 – 12:10

Aberdeen City 12:30 - 14:40

In our 4th annual Schools Lectures we'll be presenting Surveying for the Oil and Gas industry with talks on what Surveying is, new technology and gadgets and talks from people who have been offshore. Our aim is to inspire young people to consider science subjects later in their academic career and also have fun learning!

Programme

Welcome and Introductions....

An Introduction to offshore Surveying - BP

Cool Survey Gear - includes 3D laser Scanning & drone operations

School Challenge – Subsea simulation software, a competitive digital race between schools

My role as an Offshore Surveyor

Award/Presentation - Poster competition (see attached for info.)

Optional - Lunch space arranged at the Hub (Schools to provide their own lunch packs)

For bookings and further information please email THSiS@outlook.com

Note: Schools to arrange travel to and from the event. Reasonable costs for bus hire will be met, invoices to be sent by email to THSiS@outlook.com Attn. Karel Zuidweg. Approved invoices will be paid by cheque at the event.

THS UK is an independent, non-profit making, non-governmental, learned professional society. It provides a forum for all those involved in activities related to hydrography and associated disciplines, both in the UK and overseas. THS UK encompasses a wide range of specialisms and activities. Our Individual and Corporate Members operate in many sectors including surveying for nautical charting, offshore resources, construction, engineering, renewable energy, environmental monitoring, oceanography, geology and the manufacture and supply of related products.
